
exp	subject (verbatim)	frozen outcome (verbatim), one chip per label, coloured by its recorded status; the status, verbatim, beneath
016	the frame-conditioned token-local Q/K model	FRAME_CHANNELS_PREDICTED_TOKENS · FRAME_CHANNELS_PREDICTED_FRAMES_CONDITIONAL · SCALE_ONLY_REJECTED status: prospective confirmation (Y2 conditional); the scale-only alternative rejected on both sets pooled
017	the transport head's own pattern change	HEAD_PATTERN_PREDICTED_TOKENS · HEAD_PATTERN_PREDICTED_FRAMES_CONDITIONAL · FROZEN_PATTERN_NOT_REJECTED status: Y1, Y2 (conditional) prospective confirmation; Y3: the necessity of the pattern term unestablished
018	block 2's operating-point dependence (channel D)	CHANNEL_D_CONCENTRATED_TOKENS · CHANNEL_D_NOT_CONCENTRATED_FRAMES_CONDITIONAL · SINGLE_NEURON_REJECTED · PATTERN_TERM_NOT_ESTABLISHED_WITHIN_FRAMES status: Y1 prospective confirmation; Y2 unestablished (no-harm guard, one frame); single-neuron account rejected (pooled, pair-weighted); Y4 unestablished
019	frame-conditioned routing of channel D	ROUTING_PREDICTED_TOKENS · ROUTING_PREDICTED_FRAMES_CONDITIONAL · OPERATING_POINT_PLUS_DRIVE_RULE_SUFFICIENT · TEMPLATE_FAMILY_INSUFFICIENT · MEMBERSHIP_PREDICTED status: prospective confirmation (Y2 and the new-frame parts of Y3–Y5 conditional); aggregate, not per frame
020	readout decompilation to the logit contrast	none assigned · the confirmatory test was never run status: exploratory; the confirmatory test was never run
021	corrected readout-decompilation confirmation	CONTRAST_PREDICTED_TOKENS · CONTRAST_NOT_PREDICTED_FRAMES_CONDITIONAL · NOUN_READOUT_FIXED status: Y1, Y3 prospective confirmation; Y2 unestablished (a zero-clamped floor; the erratum names a wiring defect); all three labels test 020's p_t-wired program
022	localization of the upstream Δx3 error	Y1 Y2 all eight PASS · no aggregate label status: prospective confirmation, per condition (Y2 conditional)
023	prospective block-0 completion	Y1 Y2 three PASS · Y1/cue_final ENVELOPE_ONLY_FAILURE · no aggregate label status: three prospective confirmations (Y2 conditional); one unestablished at its envelope (guard met)
024	an operational nounness score predicts readout error	NOUNNESS_PREDICTS_READOUT_ERROR_BEYOND_SIMPLE_PLURALITY_OR_MEASURE_CLASS status: prospective confirmation of a predictive association; the guard's formal scope is two simple alternatives
025	nounness-direction intervention on the cue embedding	CAUSAL_EFFECT_NOT_ESTABLISHED status: unestablished; the end of the sequence
