		C002	C003
Level 0	Quantities and success criteria operationally defined	checked	checked
	Inputs, tokenization, positions and targets recorded C002: Inputs, tokenization, positions, and targets recorded	checked	checked
	Reconstructed outputs agree with model ground truth	checked	checked
	Numerical validation, tolerances and failure behavior documented C002: Numerical validation, tolerances, and failure behavior documented	checked	checked
	Model revision, dependencies, runtime and artifact locations recorded C002: Model revision, dependencies, runtime, and artifact locations recorded	checked	checked
	Reproducible from version-controlled instructions	checked	checked
Level 1	Measured directly, with explicit sample and scope C002: Phenomenon measured directly with explicit sample and scope	checked	checked
	Variation across cases quantified	checked	checked
	Repeated or related cases examined	no such item	checked
	Results labeled exploratory or confirmatory C002: Result labeled exploratory or confirmatory	checked	checked
	The conclusion avoids causal interpretation C002: Conclusion avoids causal interpretation at this level	checked	checked
Level 2	Narrowed to defined layers, positions and components C002: Narrowed to defined components and positions	checked	checked
	Plausible alternative locations compared	checked	checked
	Obvious artifacts and confounders tested	checked	checked
	Replicates within its declared scope C002: Localization replicates within its declared scope	checked	checked
	Not presented as proof of causality	checked	checked
Level 3	Intervention and predicted outcome documented before inspection	checked	checked
	Necessity-oriented intervention supports the prediction on confirmatory data	Not established	Not established
	Sufficiency-oriented intervention supports the prediction on confirmatory data	Not established	Not established
	Matched, negative and other controls on confirmatory data C002: Matched, negative, and other controls on confirmatory data	Not established	Not established
	Effect sizes and uncertainty reported	checked	checked
	Plausible alternative causal explanations considered	checked	checked
Level 4	Falsification tested	Not reached	Not reached
Level 5	Generalized	Not claimed	Not claimed
Level 6	Algorithmic explanation	Not claimed	Not claimed
